

Introducing the all new

ProMaster Community Shuttle

by *Creative Carriage*

This is the Future of Community Transportation and the Future is Accessible to All

Since 1988 Creative Carriage has lead the industry as a pro-active participant in standards development, vehicle safety and innovative design. Continuing the spirit of accessibility for all. Creative Carriage is proud to introduce a unique addition to the low floor commercial transportation market, The ProMaster Community Shuttle.

The all new ProMaster Community Shuttle is designed for all members of the community, whether using a wheelchair, a walker, or fully ambulatory.

A quick and dignified loading experience from either the low side door step, or the rear access zero effort spring assist ramp.

The ProMaster Community Shuttle by Creative Carriage will never leave you in a position where you cannot load or unload your passengers.
